

The Maxi
OUTBACK

- still as compact & now fitted with our largest lifter!

Improved
Design!

When the back work area's up, its ideal for working on.
(The Cutting mat shown is an optional extra)

- ▶ Centre of the needle sitting position, allows you to be directly in front of the needle when sewing.
- ▶ Extra stable, open base construction; 7 easy rolling (3 lockable) castors, are attached to a specially designed reinforced frame.
- ▶ 3 step push down release maxi air-lift mechanism means a quick push down moves your machine from storage to flatbed to free-arm positions and will fit all domestic sewing machines on the market old or new!
- ▶ Spacious, see through door bins are recessed under the lid by means of a specially constructed angled door system this allows your fabric to drape down without catching or disturbing the door bin contents. Also a handy magazine compartment with dividing shelf which adds even more storage.
- ▶ The work surface is fitted with flush mounted non snag hinges.
- ▶ Large work area at the back of the machine. Lifts up easily when needed and down when not (so it doesn't have to be open all the time). It has a very sturdy gate leg design with Quilters/Patchworkers in mind but is ideal for all sewing projects..
- ▶ Handy storage holder for your machine insert.
- ▶ Attractive soft formed bevelled edging finish to the tops
- ▶ Comes fully assembled, the cabinet is beautifully finished front to back, inside and out.

The smallest cabinet to be fitted with our Maxi-lifter!
-a compact cabinet that can fit into any home and is able to fit even the biggest sewing machines on the market today;
i.e. Bernina 700 & 800 series, Brother V series,
Janome Horizon Range and Husqvarna Diamond to name a few....
(Take a look at the back page to see how the air-lift works)
