

A sewing and crafting table like no other

Horn's largest table is the perfect addition to your sewing and crafting studio. Horn's timeless design and elegant fixtures provide storage, convenience and function – along with an expansive worksurface and 8 large, heavy duty and lockable castors to provide excellent stability and easy mobility.

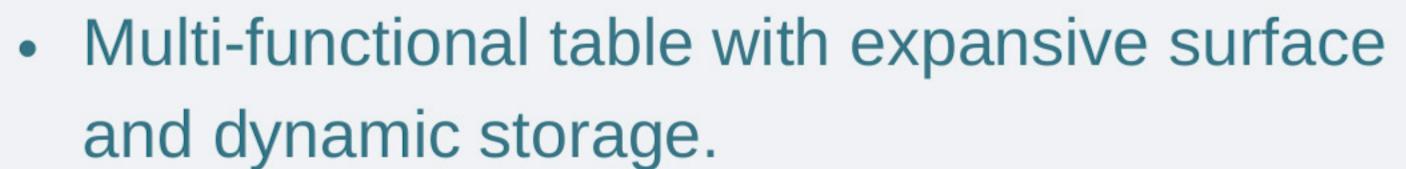

Even better – the 2 side leaves fold down for easy storage when not in use. With additional integrated cupboards on <u>both</u> sides you can pack away your machines on one side, and accessories in 4 large translucent storage trays in the other. Perfect!

One side is fitted with trays, for materials/notions whilst the other can store your machines with the help of a shelf

- 2 fold out leaves create a huge 70" x 40" cutting surface for even the largest of projects.
- 8 large lockable castors for stability and easy mobility.
- Table folds down into compact space (20" x 40") to fit in most rooms when not in use.
- Optional 1.5m x 1m Huge Cutting Mat available.

Another additional feature is rounded corners to ensure your projects are kept safe from snags.

The Maxi hobby table is perfect. It is extremely well made and a very solid, sturdy work table. 99

HORN CUSTOMER

Oak

Grey Oak

Please note: due to its size, it may not be possible to take this unit up an internal staircase. See pg. 43 for more details.

Good design stands the test of time
