

- 1 Enhanced with a deeper drop and a stronger gas lifter to accommodate larger, taller, and heavier sewing machines.
- 2 Smooth and simple to operate.
- 3 3 adjustable stop positions with push-down release mechanism.
- 4 Durable zinc plated finish on the mast.
- 5 Solid movement on 8 steel ball roller bearings.
- 6 Can be purchased separately for a project of your own.

Our lifter system is able to lift almost all domestic sewing machines, old or new.

The 3-step air lift allows you to go between free arm, flat bed and storage positions.

AIR-LIFTER

You need never lift or carry your sewing machine again.

It couldn't be easier or more effective, simply push down on the top of your sewing machine and it will lift your machine to a pre-set position adjusted by you.

Stored position

Inset/Insert position (flat-bed)

Table-top position (free-arm)
